

B-7598 Polyester Cable Tag

Durable outdoor cable identification

The B-7598 polyester cable identification tag has been developed to keep cables identified in outdoor environments. It offers up to 10 year outdoor legibility and durability and is available in 7 colours.

Extremely durable

- Up to 10 years outdoor durability
- Scratch resistance
- Tear resistance
- Dirt resistance
- UV resistance
- Heat resistance
- Cold resistance
- Moisture resistance
- Chemicals resistance

Applications

The B-7598 polyester tag is a general identification tag for cables exposed to extreme conditions. It requires cable ties to apply to cables with various diameters. Common applications for this cable tag material are:

- Identification of multi-conductor cables
- Identification of cables in mobile phone towers
- Identification of datacom or telecom cables in general
- General cable identification that must be extremely resistant

Print on-site

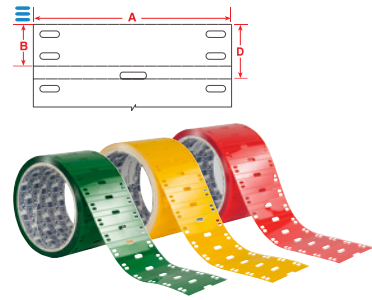

Print the B-7598 polyester tag on demand at your facility or at location to quickly identify cables in remote infrastructure.

B-7598 can be printed with:

- Brady IP™ Printer
- BP PR+ Printer
