

PD-9501G-SFP PoE Media Convertor, 60W PoE Output

Overview

The Microsemi PD-9501G-SFP is a Media converter with PoE functionality. It has total of 3 ports that can be active simultaneously. Data input can be via SFP module or via the RJ45 port, the output will be data and power up to 60W. The media converter offers unique solution to power long range installations where the data input comes over fiber. Standard SFP modules can be used (SM or MM modules). The 9501G-SFP complies with IEEE802.3at and will provide PoE after detection, the PoE port will provide the power level needed by the end device offering safe solution for all types of applications starting with 802.3af loads and up to 802.3at 4-pairs loads.

Key Features

- Media converter SFP to PoE
- Can be used as PoE injector
- All 3 ports can be active simultaneously
- IEEE 802.3at compliant
- Guaranteed output power 60W
- Supports 10/100/1000Base-T
- Safe: low power devices receive only the power they need

Specifications
